# Capture, Close and Process Sales Faster.

FireLight® e-application automates the way applications are completed and submitted. With a familiar application process, intuitive interface, behind the scenes powerful rules engine, mobile and disconnected capabilities and built-in e-signature, FireLight makes transacting business anytime, anywhere, quick and easy.
Complete Applications Effortlessly and In Good Order

- Submit In-Good-Order Applications the First Time
- Save Valuable Selling Time
- Conduct Business Anytime, Anywhere
- Capture Signatures Quickly and Easily
- Reduce Processing Time, Get Paid Faster
- Enhance Clients' Sales Experience
- Access Up-to-Date Carrier Applications

Easy Steps to Complete and Submit Applications

1 **Form Entry:** Integrated business rules automatically choose correct application forms based on state and product and highlight required data fields, easing and expediting the application process.

2 **Signatures:** When you complete the application, gather all required signatures prior to submission. Multiple signing options are available through FireLight.

3 **Finalize:** Submit the In-Good-Order application for processing.
